

Rosalyn Shyanne

"My Time to Shine"

Components:

3 glitter bottles,
1 glue with brush included,
4 reusable sticker stencils,
and lots of fun!

Tips:

- It is best to add glitter to plastic parts of doll's body only.
- Avoid getting glitter on doll's hair or fabric body.
- Cover your work surface so it is easy to remove extra glitter when you are done.
- Once you have used the glitter stencils, clean the top surface by gently wetting your finger and rubbing the surface until it is clean.

How to remove deco from doll:

- Rub the deco off by gently rubbing with a damp cloth.

Step 1

Remove stencil from paper and place onto doll's body. Smooth stencil surface with finger.

Step 2

Using the glue brush, apply glue over the sticker stencil.

Step 3

Apply glitter by holding jar closely over the sticker stencil and gently tapping the bottom of the glitter jar. Do this until the stencil opening is completely covered.

Step 4

Carefully remove the stencil.

Step 5

Remove the excess glitter by blowing on it gently.
tip: you can use cotton swabs for removing excess glitter from in-between shapes.

“Deco Strips”

Step 1

Choose a stencil design with lots of shapes.

Step 2

Add glitter color of your choice to all of them.

"Making Stripes"

Step 1

Apply the sticker stencil to doll's body and add glue to the entire stencil opening.

Step 2

Using the white base of the sticker stencil as a guide for a straight line, add glitter to top part of stencil.

Step 3

Move the white paper down and repeat step 2. Do this until entire stencil opening is covered in glitter.

“Two-way color”

Step 1 Apply stencil & glue, same as instructions on previous pages.

Step 2 & 3

Use glitter color #1 on half of the stencil. Then use glitter color #2 on second half of the stencil.

pretty ideas

this is OUR story®

We're a very special generation of girls, aren't we?

We don't feel the need to define who we are. We're just us. And proud of it. ♀♀♀♀ We love to do our hair, wear skirts, and dig in the dirt. (Occasionally all at the same time if we feel like it.)

We're curious about laser beams while we're chasing after our big dreams. There's nothing we won't try, except maybe jalapeño ice cream. ♡ That's just weird.

Whether we're washing cars to support animal shelters, writing letters to help save polar bears or reminding our parents to recycle their newspapers, we've proved ourselves both smart and full of heart. ☀ We are here to live out loud.

What does the future hold for us?

Whatever it is, it's up to us, of course.

This is our time. This is our story.

CONFORMS TO ASTM D-4236

WARNING: DO NOT USE ON CHILD'S SKIN.
For use on doll only. Do not wet the doll's head or body when removing the glitter decos.

back cover

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years.

front cover

“Freestyle”

You need an idea! You can use whatever shape you like.

Step 1

Choose the doll part you want to decorate.

Step 2

Draw the shape you like with the glue brush.

Step 3

Add glitter on top of the glue to finish.

Voila!

You created your own design.
